

I subscribe to satellite radio because FM and AM radio stations have become nothing more than an entity that mixes a little news, weather, music, etc. with the advertisements. I gladly pay the inexpensive subscription fee to avoid listening to the constant rhetoric of advertisers trying to sell me something that I do not want.

HR 4026 is just the tip of the iceberg. If the NAB is successful in doing away with weather and traffic stations, they will move on to music, news and any other part of satellite radio they feel threatened by. It is obvious that satellite radio is dipping into the pockets of the NAB and they don't like it. Taking away first amendment rights is NOT the solution! The NAB needs to step up to plate and get their listeners back "fair and square"; provide the same quality service to the public that satellite radio provides. Americans are not as empty-headed as Capital Hill seems to think we are. Vote no on HR 4026!
